

GPTA Update - Jan 07

Grounds Project Update - Over the Christmas holidays two storage cabinets were erected on the infant and junior playgrounds. These were purchased with our Sainsbury vouchers last year and make the playground equipment much easier to access for the children to use at playtime.

The GGIP (Greville Grounds Improvement Project) committee is meeting on Tuesday 23rd after school to discuss creating a growing garden for the children to learn about plants and growing food. Please call 272478 or email the PTA if you are interested in joining us, or come along on Tuesday. We are a committee made up of PTA members, governors and school staff. We will be arranging a working party Saturday or Sunday early in March for volunteers to help put the garden together. We are also looking at ideas for raising the money we would like to use to spend on infant & junior playground equipment this year. Please let us know if you work for an organisation that might be able to help with sponsorship of part of our grounds project. Large organisations often have community giving initiatives, we would be happy to help with applications.

Bag2School - our next collection day is Wednesday 7th February and again you can bring in your bags during parents evening the day before. Bags will be out in book bags during w/c 22nd Jan, but any black bin bag will do. We are looking for bags filled with:

Adults & Children's Clothing, Bedding, Curtains, Soft Toys, Shoes, Belts & Handbags

Quiz Night - Sat 3rd Feb - this is always an entertaining evening and includes a fish and chip supper. You can come and make up a team on the night or enter a team of 6. Book bag notes have been distributed, but if you need another copy you can download one on our website, look under news and events. Remember, it is the taking part that counts - not the winning!
